
BixPack 2 Blufftitler.27

The template used is from BixPack 27. ... In this example, 2 plasma layers are used. ... There are 2 ways to use a plasma layer as a displacement map: \hat{a}_j Use the entire raster space and move the plasma layer relative to the entire raster. This method is used if you want to draw a plasma beam as a segment. \hat{a}_j Use only part of the raster and shift the plasma layer relative to this part. This method is used if the plasma beam needs to be drawn only on a part of the raster... This example uses only part of the raster ... This example uses only part of the raster ... This example uses only part of the raster.
