Customer Reviews Rated 5 out of 5 by cteny Always works with no problems I use this application all the time and its GREAT!! I get many shots out of one screen. It captures just a part of the screen so its fine. I can use it from any computer I run on. I have used another application in the past and had so many problems I've thrown it away. May 23, 2014 Rated 5 out of 5 by Joe_Out This works like a dream. I've never had success capturing a screen on any of my computers with other applications. This one does the trick without a hitch. May 16, 2014 Rated 5 out of 5 by JJC Thanks! Great program to use! Just use the recommended hot keys on start up for best results. May 11, 2014 Rated 5 out of 5 by Leo Oops... didn't tell you... It's very easy to use. Just make sure the hot keys are setup properly before recording is started. You must have all the hot keys setup for the program to function. May 6, 2014 Rated 5 out of 5 by rawr Spiffy I am a power user when it comes to capturing portions of my screen. I use F1-F12 to switch tasks, and i have all windows open, and i've never had an app that can capture the screen without leaving a sticky mess on my desktop. This is a solid app that works well. It's FAST. You won't be disappointed. Download this app and go crazy. May 6, 2014 Rated 5 out of 5 by Aron Creating graphics So the b7e8fdf5c8

SCREEN GRAB Crack +

Screen Grabber (SCREEN GRAB) is an easy-to-use screen recording utility that allows you to record any selected area of your desktop and save it as video file or print your recording to a file. Main features: 1. Record/Save a Screen Video With this easy-to-use Screen GRAB software, you can record and capture the screen videos as one file, format can be AVI, MPEG, GIF, WMV, JPG and other video formats. Also, you can choose the location for save video file or print the recorded video. 2. Select a menu for record and save video When start to record your computer screen, you can click the menu bar to record or save the video as the document file or print file. 3. Easy to use, no professional software required SCREEN GRAB is an easy-to-use Screen GRAB software, you only need right click mouse to record and print the screen video. 4. Support the direct recording without internet required. 5. Support the video screen and print screen capture. 6. Support to record only if the mouse is on the screen. 7. Support to record sound recording. 8. Support multi-thread recording and splitting. 9. Support hot keys for recording and saving. Requirements: 1. To run, it needs to be installed at least in C:\Program Files\SCREEN GRAB\ 2. Supports Win 95/98/ME/NT/2000/XP and all later versions of Windows. 3. To correctly work, it requires at least .NET Framework 1.1 installed. However, it has been tested on all previous versions of .NET Framework from 1.0 through 3.5 and as long as .NET Framework 4.0 is available for your current operating system (or at least the client profile). It is not required and may in fact interfere with .NET Framework 4.0. If you don't have it, it does not work properly on that platform, but it should still work on previous versions. License: The source code is available for download under the GPL. You are free to use and modify it however you wish. This is the same license as the .NET Framework itself. If the program you are interested in can be used in this way, please take a moment and check the license as well as the copyright notice on any open source files

What's New in the SCREEN GRAB?

Capture screen activity and messages in real-time into AVI files. Record video footage or desktop screenshots which are always saved and easy to share and organize. Key features:

- High-quality, lossless screen recordings and screen captures.
- Easy and lightweight user interface.
- Exclusive scaling and color correction algorithms.
- Customizable hotkeys.
- Full screen, window or region selection.
- Save recordings either as individual files or as single AVI files.
- Choice of output: Web, Image or clipboard.
- Supports recording in both normal and stealth mode.
- Self-generated image size can be individually adjusted.
- Video files will be compressed before being saved.
- Multiple capture layers are supported in a single recording.
- No screensaver modes, working in all Windows versions.
- Screen capture and screen record functions used to record desktop activities, online videos, web pages, Skype conversations, and the most important parts of your PC screen in only one click. You can save the results as various formats like MOV, AVI, WMV, MP4, FLV, JPG, GIF, PNG, BMP, TIF, and the most common image formats like JPG, PNG, GIF, TIF, etc. You can customize the zoom ratio (100% to 1/12%) and preview picture. You can adjust screen resolution, adding a frame to the left or right of the screen. You can also adjust the color saturation and brightness, add a frame to the left or right of the screen, add a title to your screen capture and screen record, and set the time of the screen capture or the screen record.
- Record screen activity and video screen activity (like Skype) on PC or laptop. Record or take a new screen and record your Skype video calls. Optimized use of the core resources of the processor and video card driver. Supports almost all existing operating systems.
